

H-58 PAVING AND CLOSURE

Pictured Rocks National Lakeshore
National Park Service
U.S. Department of the Interior

During summer of 2006, the Alger County Road Commission will be paving a 3.8 mile section of County Highway H-58 west from the Log Slide Road to the upper Hurricane River Campground. Construction will require closure of the road between these two points. Visitors traveling through the Lakeshore will be detoured as shown on the map below. It is expected the project will begin in May and will last into October.

Visitors entering the park from Grand Marais will only be able to travel as far as the Log Slide. In order for you to access the rest of the Lakeshore, you will be routed back through Grand Marais south on M-77 for nine miles to the Adams Trail. (Detour signs will be posted.) You will then be directed to travel 12 miles west on the Adams Trail (a narrow, rough dirt road) to the Kingston Corner intersection with County Highway H-58. From the Kingston Corner intersection, you can access the remaining park facilities to the east and west.

Visitors entering the Lakeshore from the west will be able to access all facilities and areas up to and including the Hurricane River Campground and Au Sable Light Station. In order to reach the Log Slide, Grand Sable Lake and Grand Marais, you will be directed to the Kingston Corner intersection, where you will be detoured 12 miles east on the Adams Trail then north 9 miles to Grand Marais and into the park.

For current information please call the visitor center at 906-387-3700 or 906-494-2660.
